

Test ID	Use Case	Expected Results	Instructions	Actual Results	PASS/FAIL	Out of Scope: Additional Feature Backlog
TC1.1	As a user, I want to easily understand the purpose of the site.	The title of the site is shown in the browser with a favicon.	The website is in browser: http://venture-press.herokuapp.com/ 2. In the browser tab, check that the name of the site says "Venture Press" 3. In the browser tab, check that there is a favicon shown.	Name of the site is shown, with a favicon.	PASS/FAIL	
TC1.2	As a user, I want to easily understand the purpose of the site.	A hero image and introduction is shown beneath the navigation menu on the home page.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. On the home page there is a hero image with an introduction about Venture Press	The heading which includes the name of the website and the introduction within the hero image clearly indicate the purpose of the website.	PASS	
TC1.3	As a user, I want to easily understand the purpose of the site.	A small section containing print services available is displayed beneath the hero image.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. On the home page, scroll below the hero image. 3. Section containing print services displayed beneath hero image.	Scrolling below the hero image reveals a section containing some of the print services available for purchase.	PASS	
TC2.1	As a user, I want to easily view the website and content on any device.	The site is fully viewable and functional on Mobile, Tablet, and Desktop viewports.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Open developer tools 3. Click the toggle device toolbar 4. Click and drag responsive window to all viewport widths down to and including 300px. 5. Ensure content layout is not compromised	All content structure and text flows well when reduced all the way down to a viewport width of 300px.	PASS	
TC3.1	As a user, I want to easily navigate the website so that I can find content quickly.	On desktop, there is a navigation menu at the top of the page which indicates other pages the user can visit.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Hovering over a menu item clearly shows which item the user is selecting due to a hover effect. 3. The menu items are clearly shown and explain their respective pages. 4. Clicking on most menu items takes the user to the intended page. 5. Clicking on the Services menu item brings up a dropdown menu of service categories. 6. Clicking on these categories filters the Services page, and All Services applies no filter. 7. When logged in, the user controls are hidden in a dropdown that is titled under the user name. 8. Clicking on the user name shows the options available to a logged in user	The mouse-over hover effect works as expected with each menu item turning a lighter shade of blue. Each menu item is clear and visible, and all links work as intended, taking the user to the correct page. The Services sub-menu works as intended for filtering the services by category. If logged in, the user sub-menu shows as expected when clicked on.	PASS	
TC3.2	As a user, I want to easily navigate the website so that I can find content quickly.	On tablet and mobile, there is a burger menu which allows the user to get around the site.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. On mobile/tablet, the burger menu is shown in the top right 3. Click on the burger menu to see a list of options combined with the options if you are logged in as a user 4. Click on each individual service to ensure each item takes the user to the intended page	The burger menu works on mobile and tablet. All links take the user to the intended page and work as expected. When logged in, the additional options are visible to the user.	PASS	
TC3.3	As a user, I want to easily navigate the website so that I can find content quickly.	Clicking the venture press name logo takes the user to the homepage.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Follow each of the navigation links in the menu 3. On each page, click on the "Venture Press" name	Clicking the Venture Press name on each page takes the user back to the homepage.	PASS	Make sure that the logo itself links to the home page as well as the text.
TC4.1	As a user, I want to be able to see what print services are available and how much they are.	From loading the hero image, simply scrolling down to below the hero image will show a small cross-section of services available to purchase, with details clearly displayed.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Scroll down to the small section of services shown beneath the hero image	Scrolling down from the home page shows a small section of services with each service clearly having a name, image, description, category, price and link to more details.		
TC4.2	As a user, I want to be able to see what print services are available and how much they are.	Clicking on the Services button in the hero image should direct the user to an unfiltered services page with all services displayed with associated details.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Click on the Services button on the hero image. 3. Scroll down to view the services	Clicking on the Services button on the hero image brings up the services page with every service clearly has a name, image, description, category, price and link to more details.	PASS	
TC4.3	As a user, I want to be able to see what print services are available and how much they are.	Using the navigation menu, clicking on Services will trigger a dropdown menu with an "All Services" option available to click. Clicking on this will return the same unfiltered Services page as the link in the hero image does.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Click on the Services button in the navigation menu 3. Then click on All Services from the initiating dropdown menu 4. Scroll down to view the services	Clicking on the Services navigation link brings up a dropdown menu. Subsequently clicking on the "All Services" link brings up the services page where every service clearly has a name, image, description, category, price and link to more details.		In a future update, remove the category dropdown from the navigation menu, and integrate category filtering into the Services page itself.
TC5.1	As a user, I want to be able to search the website for services I may be interested in.	At the top of every page inside the navigation menu, there will be a search bar. Searching for a service name will return only that service. Searching for a category will return all services pertaining to that category. Partial searches should still return results, including searching content in service descriptions. Searching with no query should bring up a toast error message. Clicking the search icon as well as hitting enter will both allow the user to search once a term has been typed in.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Find the search bar inside the navigation menu. 3. Click into the search bar. 4. Type in a Service name: Business Cards 5. Click on the search icon or hit enter on the keyboard. 6. Type in a Category name eg. Stationery 7. Click on the search icon or hit enter on the keyboard. 8. Type in a partial search term, e.g. "Business" 9. Click on the search icon or hit enter on the keyboard.	The search bar is clearly visible at inside the navigation menu at the top of the home page. Clicking into the search bar highlights it so that the user can see where they are typing. When a user doesn't fill anything out and searches, a message popup appears informing the user that no search term was entered. Using a category name eg. Stationery, as a search term will return all services associated with that category. Using words in the search term associated with the description of the print services the user is interested in returns all services associated with those terms. Hitting enter and search both return the same search results.	PASS	Add form validation to restrict empty search terms entirely, rather than allow the search with an error toast message.
TC6.1	As a user, I want to be able to filter the print services by category.	Clicking on Services in the navigation bar will trigger a dropdown menu of categories. Clicking on any of these categories will take the user to a filtered version of the Services page based on the category chosen. This category and the number of services within it will be displayed at the top of the filtered results with a link to go back to an unfiltered page.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Click on the "Services" button in the navigation menu. 3. Click on "Stationery" or any other category within the dropdown menu. 4. Filtered results information shown at top of page. 5. Scroll down to view the filtered services.	Clicking on the Services navigation link brings up a dropdown menu. Subsequently clicking on the "Stationery" category link brings up the services page where every service is part of the "Stationery" category where each clearly has a name, image, description, category, price and link to more details. The number of services within this filtered category and the name of the category filter itself are clearly displayed at the top of the results. Repeating this process with the other categories in the Services dropdown yield the same results applicable to the category chosen.	PASS	
TC7.1	As a user, I want to be able to customise my chosen service and then add it to my cart.	Clicking on any service will bring up a Service Details page with an option to change quantity. Changing the quantity will adjust the price displayed accordingly.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Click on the "Services" button in the navigation menu. 3. Click on "Stationery" or any other category within the dropdown menu. 4. Filtered results information shown at top of page. 5. Scroll down to view the filtered services.	Clicking on any service brings up a details page specific to that service. There are select boxes available for a Paper Type, Paper Size and Print Process with various options within each.	PASS	
TC7.2	As a user, I want to be able to customise my chosen service and then add it to my cart.	Clicking on any service will bring up a Service Details page with an option to change quantity. Changing the quantity will adjust the price displayed accordingly.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Click on any service listed on the home page, or any filtered or unfiltered version of the Services page. 3. Customisable quantity input option shown.	Clicking on any service brings up a details page specific to that service. A quantity input box is available for adjusting the quantity required for the chosen service. Changing the quantity by integer input or by using the increment/decrement sliders changes the price displayed correctly.	PASS	
TC7.3	As a user, I want to be able to customise my chosen service and then add it to my cart.	Clicking on any service will bring up a Service Details page and underneath the customisable options there will be an "Add to Cart" button. Adding a service to the cart will initiate a toast success message and save an instance of the service with the chosen options to the session. The price below the Cart icon at the top right of the navigation menu will change to reflect the items added to the Cart.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Adjust the customisation options to the desired values. 3. Adjust the quantity to the desired value. 4. Click on the "Add to Cart" button beneath these options. 5. See if a message appears and if the Cart total changes underneath the Cart icon in the navigation menu at the top right of the screen.	Clicking on any service brings up a details page specific to that service. After customising the service accordingly, clicking on the "Add to Cart" button produces a popup message informing user that the service is successfully added to their cart. The cart total at the top right of the screen changes accordingly to the total of the services added.	PASS	
TC8.1	As a user, I want to be able to view all services I have added to my cart before deciding whether to proceed to payment.	Hovering over the Cart icon on the navigation menu should initiate a mini cart popup displaying all items both emails match in both input boxes and the username doesn't already exist then upon submitting the form a user account will be created in the Users database. This will initiate an info message for the user to check their email in order to confirm it as well as an email sent to the address input on registration with the link required to confirm the email address. Clicking on this link will direct the user to a confirmation page whereby clicking on the 'Confirm' button will verify the address and subsequently allow the user to login to their account.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Click on the Cart icon at the top right of the navigation menu. 3. See if popup appears showing cart details 4. Move mouse away from the Cart icon and popup menu. 5. See if popup disappears.	By moving the mouse over the Cart icon in the nav menu, a popup appears showing cart details, total and View Cart button. Hovering away from the Cart icon and/or cart popup causes the popup to vanish after 3 seconds.	PASS	
TC8.2	As a user, I want to be able to view all services I have added to my cart before deciding whether to proceed to payment.	Clicking on the Cart icon on the navigation menu or hovering over it to initiate a mini cart popup then clicking on View Cart will both direct the user to the full Cart page. This page will clearly display all services currently in the cart, delivery charges and a cart total. Beneath this information will be a 'Checkout' button.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Click on the Cart icon at the top right of the navigation menu. OR 3. Hover over the Cart icon and click the 'View Cart' button inside the cart popup. 4. See details regarding Cart items on page.	Either by hovering over the Cart icon and clicking on the 'View Cart' button at the bottom of the popup, or by clicking on the Cart icon itself, both direct to the Cart page. Here detailed information is displayed about services that are currently in the cart with the ability to increment/decrement quantities for each. Beneath this list is a 'Checkout' button.	PASS	
TC9.1	As a user, I want to be able to proceed to purchasing the contents of my cart. Input my card details and make the purchase.	Once on the Cart page, beneath the cart contents will be a 'Checkout' button. Clicking on this button will bring up the Checkout page.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Click on the Cart icon at the top right of the navigation menu. 3. Hover over the Cart icon and click the 'View Cart' button inside the cart popup. 4. Scroll to beneath the Cart contents to the 'Checkout' button. 5. Click on the 'Checkout' button.	Having added a service to the cart and navigating to the cart page using either method, clicking on the Checkout button and clicking it brings up a Checkout page.	PASS	
TC9.2	As a user, I want to be able to proceed to purchasing the contents of my cart. Input my card details and make the purchase.	On the Checkout page, information regarding the cart contents and totals will be displayed along with input forms for both delivery details and card options. Filling in the forms with valid inputs then clicking on the 'Submit Order' button will process an order and direct to the Order Confirmation page with details of the order.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Click on the Cart icon at the top right of the navigation menu. OR 3. Hover over the Cart icon and click the 'View Cart' button inside the cart popup. 4. Scroll to beneath the Cart contents to the 'Checkout' button. 5. Click on 'Checkout' button. 6. Fill in delivery details in the delivery form. 7. Fill in card details in the stripe input form. 8. Check order totals and then click on 'Submit Order' button.	Having added a service to the cart and navigating to the cart page using either method, scrolling down to the checkout button and clicking it brings up a Checkout page. On this page, filling in the required fields and valid test card number then pressing on the 'Submit Order' button processes the order and directs the user to an Order Confirmation page which shows order and delivery details.	PASS	
TC9.3	As a user, I want to be able to proceed to purchasing the contents of my cart. Input my card details and make the purchase.	Form validation on the Checkout page will initiate toast error messages if for example, card details are invalid or if a required field has no input.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Click on the Cart icon at the top right of the navigation menu. OR 3. Hover over the Cart icon and click the 'View Cart' button inside the cart popup. 4. Scroll to beneath the Cart contents to the 'Checkout' button. 5. Click on 'Checkout' button. 6. Forget to input a required field in the delivery form. OR 7. Use invalid card details in the stripe input form. 8. Fill on popup totals and then click on 'Submit Order' button.	If card details are not valid, or if a required field has no value then an applicable error message pops up.	PASS	
TC10.1	As a user, I want to be able to contact the company about any queries or custom quotations I might need.	Clicking on the 'Contact' link in the navigation menu will be the top of the page will bring up a Contact page. On this page will be a contact form with a category selector and required inputs.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Click on the 'Contact' button in the navigation menu at the top of the screen.	Clicking on the 'Contact' link in the navigation menu directs to a Contact page containing a form with a category option and required fields to fill in.		
TC10.10	As a user, I want to be able to contact the company about any queries or custom quotations I might need.	Choosing a category for the query, filling in the required fields and clicking on the 'Submit Query' button will save the query to the Contact database, initiate a toast success message and send a confirmation email to the address input in the form.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Click on the 'Contact' button in the navigation menu at the top of the screen. 3. Choose a contact category and fill in the required form fields. 4. Click on the 'Submit Query' button. 5. Check for popup message and email.	Filling in the required fields of the Contact form, selecting a contact category from the selector box then pressing on the 'Submit Query' button displays a popup message telling the user of a successful submission. Upon checking the email which was input into the form for the associated query, an email has been received from the website outlining office hours and expected response times.		
TC11.1	As a user, I want to be able to easily return to the website if I encounter a page error.	When a 404 page error is found, click on the home link to get back to the homepage.	1. Simulate a 404 page error or navigate to the 404 page. 2. Click on "Home" to navigate back to the main website	Navigating directly to the 404 page shows a landing page where the only link takes you back to homepage.	PASS	
TC11.12	As a user, I want to be able to easily return to the website if I encounter a page error.	When a 500 page error is found, click on the home link to get back to the homepage.	1. Simulate a 500 page error or navigate to the 500 page. 2. Click on "Home" to navigate back to the main website	Navigating directly to the 500 page shows a landing page where the only link takes you back to homepage.	PASS	
TC12.1	As a user, I want to be able to register on the website.	Assuming there is no current session, a 'Register' link on the navigation bar is displayed. Clicking on this link will direct to the Register page. This page contains a form with required inputs.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Click on the 'Register' button in the navigation menu at the top of the screen.	Clicking on the 'Register' button in the navigation menu directs to a Register page with a form requiring an email, a username, and an associated password. Both the email and password require a second input to validate the first.		
TC12.2	As a user, I want to be able to register on the website.	If the passwords input match in both input boxes, when clicked, will initiate a dropdown menu with several options. One of these options will be a 'Profile' link, which when clicked, will take the user to a Profile page specific to their user account. On this page profile information is stored and displayed. Clicking on this link will direct the user to a confirmation page whereby clicking on the 'Confirm' button will verify the address and subsequently allow the user to login to their account.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Click on the 'Register' button in the navigation menu at the top of the screen. 3. Fill in the necessary fields making sure passwords and emails match 4. Press on the 'Sign Up' button. 5. Check for popup message and email associated with registering. 6. Inside the email, navigate to the attached link in a browser. 7. Click on the 'Confirm' button to verify email address.	Filling in sign up details, making sure passwords and emails match before pressing on the 'Sign Up' button produces a popup message informing me to check my email. Upon checking the email address, making amendments then clicking on the 'Save' button informs me that my email address has been verified successfully.		
TC13.1	As a registered user, I want to be able to log in to my account on the website.	When not logged in or in a new session, a 'Login' link on the navigation bar is displayed. Clicking on this link will direct the user to an Edit Profile page. These will be editable by clicking on each Email address on the left hand side of the list of current Services.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Log into an account by clicking "Log In" in navigation menu. 3. Fill in correct email/username and password associated with the account and click on the 'Login' button or press enter on the keyboard.	Navigating to the login page shows a empty form for filling out and logging into the user profile. Logging in with a pre-created username and password works as expected.	PASS	
TC14.1	As a registered user, I want to be able to log out of my account on the website.	When logged into a user session, the main navigation bar will have a 'User' option which when clicked, will initiate a dropdown menu with several options. One of these options will be a 'Logout' link, which when clicked, will initiate a toast success message and delete the current user session and direct the user back to the homepage.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Log into an account by clicking "Log In" in navigation menu. 3. Fill in correct email/username and password associated with the account and click on the 'Login' button or press enter on the keyboard. 4. Click on the 'User' menu item in the main navigation bar. 5. Click on the 'Logout' option from within the dropdown menu which was initiated from clicking on User.	Once I have logged into my account, clicking on the 'User' navigation menu item brings up a dropdown menu with further options. One of these options is a 'Logout' link, which when clicked produces a popup message which tells me I have successfully logged out and directs me back to the home page directing to the 'Delete' button no longer displayed in my navigation options changing accordingly.	PASS	
TC15.1	As a registered user, I want to be able to view my profile, edit my details and change my password.	When logged into a user session, the main navigation bar will have a 'User' option which when clicked, will initiate a dropdown menu with several options. One of these options will be a 'Profile' link, which when clicked, will take the user to a Profile page specific to their user account. On this page profile information is stored and displayed.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Log into an account by clicking "Log In" in navigation menu. 3. Fill in correct email/username and password associated with the account and click on the 'Login' button or press enter on the keyboard. 4. Click on the 'User' menu item in the main navigation bar. 5. Click on the 'Profile' option from within the dropdown menu which was initiated from clicking on User.	Once I have logged into my account, clicking on the 'User' navigation menu item brings up a dropdown menu with further options. One of these options is a 'Profile' link which when clicked, directs me to a Profile page. This page shows me my currently stored user and delivery information. Beneath this information are 'Edit Profile' and 'Change Password' buttons.	PASS	
TC15.2	As a registered user, I want to be able to view my profile, edit my details and change my password.	When on the Profile page, beneath the profile information will be an 'Edit Profile' button. Clicking on this button will direct the user to an Edit Profile page specific to their user account. Changing/Adding any details then clicking on 'Update Profile' will update the profile details, initiate a toast success message and direct the user back to their Profile back which will reflect the changes in values.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Log into an account by clicking "Log In" in navigation menu. 3. Fill in correct email/username and password associated with the account and click on the 'Login' button or press enter on the keyboard. 4. Click on the 'User' menu item in the main navigation bar. 5. Click on the 'Profile' option from within the dropdown menu which was initiated from clicking on User. 6. Click on 'Edit Profile' button beneath the profile information. 7. Change/Add some details in any of the fields. 8. Click on the 'Update Profile' button. 9. Check for popup message.	After logging in and navigating to the Profile page, clicking on the 'Edit Profile' button directs me to an Edit Profile page. On this page I am able to change/edit my delivery information. If I make a change to my profile and then click on the 'Update Profile' button, a popup message tells me that the changes have been saved successfully and after being linked back to my Profile page, I can see that the changes made have been reflected in the information shown.	PASS	
TC15.3	As a registered user, I want to be able to view my profile, edit my details and change my password.	When on the Profile page, beneath the profile information will be a 'Change Password' button. Clicking on this button will direct the user to an Edit Password page specific to their user account. Changing the password and confirming the change then clicking on the 'Update Password' button will update the password details and direct the user back to their Profile with a toast success message.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Log into an account by clicking "Log In" in navigation menu. 3. Fill in correct email/username and password associated with the account and click on the 'Login' button or press enter on the keyboard. 4. Click on the 'User' menu item in the main navigation bar. 5. Click on the 'Profile' option from within the dropdown menu which was initiated from clicking on User. 6. Click on 'Change Password' button beneath the profile information. 7. Change and confirm the new password in the fields supplied. 8. Click on the 'Update Password' button. 9. Check for popup message.	After logging in and navigating to the Profile page, clicking on the 'Edit Password' button directs me to an Edit Password page. On this page I am able to change my password and confirm the change to my password in separate fields. Once I have changed my password in both fields and clicked on the 'Change Password' button, a popup message tells me the changes have been saved successfully and I am linked back to my Profile page.	PASS	
TC16.1	As a registered user, I want to be able to see a list of my order history.	When logged into a user session, the main navigation bar will have a 'User' option which when clicked, will initiate a dropdown menu with several options. One of these options will be an 'Order History' link, which when clicked, will direct the user to an Order History page specific to their user account. On this page all the previous order information will be displayed to the user.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Log into an account by clicking "Log In" in navigation menu. 3. Fill in correct email/username and password associated with the account and click on the 'Login' button or press enter on the keyboard. 4. Click on the 'User' menu item in the main navigation bar. 5. Click on the 'Order History' option from within the dropdown menu which was initiated from clicking on User.	After successfully logging into the site using the 'User' navigation link and clicking on the containing 'Delete' button opens up a dialog window, inside the dialog window is a 'Cancel' button which, when clicked, directs me back to the Services page. Also inside the dialog window is a 'Confirm Deletion' button which, when clicked, prompts a message telling me the service has been successfully deleted and I am directed back to the Services page. Searching for the item in the main navigation menu yields no result.	PASS	
TC16.2	As a registered user, I want to be able to see a list of my order history.	After navigating to the Order History page, each individual order in the list will be clickable and direct to an Order Confirmation page with details of that order. This page will have a more details breakdown of the order delivery information and beneath that a 'Back to Orders' button which will direct back to the main Order History page.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Log into an account by clicking "Log In" in navigation menu. 3. Fill in correct email/username and password associated with the account and click on the 'Login' button or press enter on the keyboard. 4. Click on the 'User' menu item in the main navigation bar. 5. Click on the 'Order History' option from within the dropdown menu which was initiated from clicking on User. 6. Scroll down the list of orders and click on any of them. 7. Click on the 'Back to Orders' button when finished.	If I click on one of the orders in the list of orders on my Order History page, I am directed to an Order Confirmation page which will show further details of that specific order, including service information. Clicking on the 'Back to Orders' button takes me back to my Order History page.		
TC17.1	As an admin user, I want to be able to create, edit and delete print services.	When logged in as an admin user, the 'Add New Service' option will be available in the dropdown menu when clicking on the 'User' button in the main navigation bar. This will take the user to an Add Service page with a form to fill in to add a new service to the Services database.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Log into an admin account by clicking "Log In" in navigation menu. 3. Fill in correct email/username and password associated with the admin account and click on the 'Login' button or press enter on the keyboard. 4. Click on the 'User' menu item in the main navigation bar. 5. Click on the 'Add New Service' option from within the dropdown menu which was initiated from clicking on User. 6. Fill in the required fields in the form before submitting the new service. 7. Click on the 'Confirm Addition' button to add the new service to the database.	When logging into an admin account, clicking on the 'Add New Service' link in the dropdown menu of the 'User' option in the navigation bar directs me to an Add Service page. Filling in the form on the page with the required details then clicking on the 'Confirm Addition' button prompts a success message to appear and directs me back to the Services page where I can see the new service added.	PASS	
TC17.2	As an admin user, I want to be able to create, edit and delete print services.	On the Services page, on every displayed service there will be a 'Delete' button within the card. Clicking on this button will initiate a dialog window and log user to confirm the deletion. On the dialog window there will a 'Confirm Deletion' button and a 'Cancel' button. Clicking on the 'Confirm Deletion' button will initiate a toast success message, delete the pertaining service from the Services database and direct the user to the Services page. Clicking on the 'Cancel' button will direct user back to the Services page without deletion.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Log into an admin account by clicking "Log In" in navigation menu. 3. Fill in correct email/username and password associated with the admin account and click on the 'Login' button or press enter on the keyboard. 4. Go to any service listed on the Home page or Services page and click on the 'Delete' button on any chosen service. 5. Click on the 'Confirm Changes' button.	When logging into an admin account, going to any listed service and clicking on the containing 'Delete' button directly to a dialog window, inside the dialog window is a 'Cancel' button which, when clicked, directs me back to the Services page. Also inside the dialog window is a 'Confirm Deletion' button which, when clicked, prompts a message telling me the service has been successfully deleted and I am directed back to the Services page. Searching for the item in the main navigation menu yields no result.	PASS	
TC17.3	As an admin user, I want to be able to create, edit and delete print services.	On any Service Details page there will be an 'Edit' button within the card. Clicking on this button will initiate a dialog window and log user to confirm the deletion. On the dialog window there will a 'Confirm Deletion' button and a 'Cancel' button. Clicking on the 'Confirm Deletion' button will initiate a toast success message, delete the pertaining service from the Services database and direct the user to the Services page. Clicking on the 'Cancel' button will direct user back to the Services page without deletion.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Log into an admin account by clicking "Log In" in navigation menu. 3. Fill in correct email/username and password associated with the admin account and click on the 'Login' button or press enter on the keyboard. 4. Navigate to any specific Service Detail page by clicking on any service on the Home or Services page. 5. Click on the 'Edit' button contained within the service details. 6. Change any of the details on the form. 7. Click on the 'Confirm Changes' button.	When logging into an admin account, going to any listed service and clicking on the containing 'Delete' button opens up a dialog window, inside the dialog window is a 'Cancel' button which, when clicked, directs me back to the Services page. Also inside the dialog window is a 'Confirm Deletion' button which, when clicked, prompts a message telling me the service has been successfully deleted and I am directed back to the Services page. Searching for the item in the main navigation menu yields no result.	PASS	
TC17.4	As an admin user, I want to be able to create, edit and delete print services.	On the Services page, on every displayed service there will be a 'Delete' button within the card. Clicking on this button will initiate a dialog window and log user to confirm the deletion. On the dialog window there will a 'Confirm Deletion' button and a 'Cancel' button. Clicking on the 'Confirm Deletion' button will initiate a toast success message, delete the pertaining service from the Services database and direct the user to the Services page. Clicking on the 'Cancel' button will direct user back to the Services page without deletion.	1. Open website in browser: http://venture-press.herokuapp.com/ 2. Log into an admin account by clicking "Log In" in navigation menu. 3. Fill in correct email/username and password associated with the admin account and click on the 'Login' button or press enter on the keyboard. 4. Go to any service listed on the Home page or Services page and click on the 'Delete' button on any chosen service. 5. Click on the 'Confirm Changes' button.	When logging into an admin account, going to any listed service and clicking on the containing 'Delete' button opens up a dialog window, inside the dialog window is a 'Cancel' button which, when clicked, directs me back to the Services page. Also inside the dialog window is a 'Confirm Deletion' button which, when clicked, prompts a message telling me the service has been successfully deleted and I am directed back to the Services page. Searching for the item in the main navigation menu yields no result.	PASS	
TC17.5	As an admin user, I want to be able to create, edit and delete print services.	On any Service Details page there will be an 'Delete' button within the card. TC18.1	As the supervisor, I want to be able to create, edit and delete categories and services.	When logged in as the supervisor in the django administration section of the website, clicking on the Categories menu item on the left hand side will open a Categories page where a list of current Categories are displayed. These will be editable by clicking on each Category, making desired changes to the fields then clicking on the 'Save' button. Categories can be deleted by either using the checkboxes on the left hand side of the list of categories then using the 'Delete selected categories' option in the action selector, or by clicking on each individual category and clicking on the 'Delete' button. New categories can also be added using the 'Add Category' button.	1. Open website in browser: http://venture-press.herokuapp.com/admin/ 2. Log into the supervisor account by clicking "Log In" in navigation menu. 3. Fill in correct email/username and password associated with the supervisor account and click on the 'Login' button or press enter on the keyboard. 4. Click on the 'Categories' link under the Products section in the left hand column. 5. Click on any Category within the list and make amendments to the values. 6. Click on the 'Delete' button. 7. Click on a checkbox on the left hand side of any other Category in the list. 8. Click on the action selector at the top of the page and choose the 'Delete selected categories' option. 9. Click on the adjacent 'Go' button. 10. Click on the 'Add Service' button. 11. Fill in the information for one of the Categories previously deleted. 13. Click on the 'Save' button.	Using a supervisor link and navigating to the admin section of the website, then clicking on the Categories link brings up a page with a list of the current Categories. Clicking on an individual category, making amendments then clicking on the 'Save' button successfully makes changes to the category. Subsequently clicking on the 'Delete' button successfully removes the category from the list. Clicking on a checkbox next to the desired category in the list, selecting 'Delete selected categories' from the action selector, then clicking on the adjacent 'Go' button also successfully deletes a category from the list. Clicking on the 'Add Category' button, adding the information for one of the previously deleted categories then clicking on the 'Save' button successfully adds the category back on the list.	PASS	
TC18.2	As the supervisor, I want to be able to create, edit and delete categories and services.	When logged in as the supervisor in the django administration section of the website, clicking on the Services menu item on the left hand side will open a Services page where a list of current Services are displayed. These will be editable by clicking on each Service, making desired changes to the fields then clicking on the 'Save' button. Services can be deleted by either using the checkboxes on the left hand side of the list of services then using the 'Delete selected services' option in the action selector, or by clicking on each individual service and clicking on the 'Delete' button. New services can also be added using the 'Add Service' button.	1. Open website in browser: http://venture-press.herokuapp.com/admin/ 2. Log into the supervisor account by clicking "Log In" in navigation menu. 3. Fill in correct email/username and password associated with the supervisor account and click on the 'Login' button or press enter on the keyboard. 4. Click on the 'Services' link under the Services section in the left hand column. 5. Click on any Service within the list and make amendments to the values. 6. Click on the 'Delete' button. 7. Click on a checkbox on the left hand side of any other Service in the list. 8. Click on the action selector at the top of the page and choose the 'Delete selected services' option. 9. Click on the adjacent 'Go' button. 10. Click on the 'Add Service' button. 11. Fill in the information for one of the Services previously deleted. 13. Click on the 'Save' button.	Using a supervisor link and navigating to the admin section of the website, then clicking on the Services link brings up a page with a list of the current Services. Clicking on an individual service, making amendments then clicking on the 'Save' button successfully makes changes to the service. Subsequently clicking on the 'Delete' button successfully removes the service from the list. Clicking on a checkbox next to the desired service in the list, selecting 'Delete selected services' from the action selector, then clicking on the adjacent 'Go' button also successfully deletes a service from the list. Clicking on the 'Add Service' button, adding the information for one of the previously deleted services then clicking on the 'Save' button successfully adds the service back on the list.	PASS	
TC18.1	As the supervisor, I want to be able to create, edit and delete categories and services.	When logged in as the supervisor in the django administration section of the website, clicking on the Users menu item on the left hand side will open a Users page where a list of current Users are displayed. These will be editable by clicking on each User, making desired changes to the fields then clicking on the 'Save' button. Users can be deleted by either using the checkboxes on the left hand side of the list of users then using the 'Delete selected users' option in the action selector, or by clicking on each individual user and clicking on the 'Delete' button. New users can also be added using the 'Add User' button.	1. Open website in browser: http://venture-press.herokuapp.com/admin/ 2. Log into the supervisor account by clicking "Log In" in navigation menu. 3. Fill in correct email/username and password associated with the supervisor account and click on the 'Login' button or press enter on the keyboard. 4. Click on the 'Users' link under the Authentication and Authorization section in the left hand column. 5. Click on any User within the list and make amendments to the values. 6. Click on the 'Delete' button. 7. Click on a checkbox on the left hand side of any other User in the list. 8. Click on the action selector at the top of the page and choose the 'Delete selected email addresses' option. 9. Click on the adjacent 'Go' button. 10. Click on the 'Add Email Address' button. 11. Fill in the information for one of the Email addresses previously deleted. 13. Click on the 'Save' button.	Using a supervisor link and navigating to the admin section of the website, then clicking on the Users link brings up a page with a list of the current Users. Clicking on an individual user, making amendments then clicking on the 'Save' button successfully makes changes to the user. Subsequently clicking on the 'Delete' button successfully removes the user from the list.
